

# Summit Pointe Elementary hosts Diversity Fair

Summit Pointe Elementary recently hosted its first annual Diversity Fair with approximately 150 students and parents attending. Students attending the event received a special "passport" that was stamped as they visited the various exhibits.

The fair included Scandinavian dances and storytelling as well as exhibits from Cold Water, the Joshua Center, Missouri Developmental Disability, Jewish Federation of Greater Kansas City, Playgrounds of Peace, and African American Culture. Information was available about the countries of India, Honduras, Canada, South America, Russia, Thailand and several African countries as well as Chinese name writing.

Summit Pointe students involved in the school's Pride Ambassadors Club shared lessons during the evening and led activities. The fair is part of the school's emphasis on meeting one of the goals in the area of diversity in the R-7 School District Comprehensive School Improvement Plan.
